14) If no place on Rs 60 can be found for him on his return after securing training the difference betn his pay as a Dy Inspector of Vaccination & that of the appointment which he will hold hereafter will have to be treated as a personal allce. As however the Sanitary Inspectors are paid by the District & Municipal Bds & are not quite clear how they can be called upon to pay more the ordinary salary of a Sanitary Inspector. In such circs the best arrangement will be to find for him a place on his own pay of Rs 60 - A place on that scale of pay may perhaps be found in the Sanitary Establishs of either the Bangalore or Mysore City Municipalities or the Kolar & Tumkur Sanitary Bds.

With reference to Govt., Pro. No. 3602-3 San.72-08-2 dated the 15th October 08 recording that the resignation of appointment of K.Ramaswami Raju, Deputy Inspector of Vaccination was accepted from the 15th May 1908, I have the honor to forward the accompanying application dated the 1st Inst. received from the individual and to state that it is not proposed to take on any more Deputy Inspectors of Vaccination. However, as his case seems to be a hard one I beg to recommend that he may be sent to Madras for training as Sanitary Inspector on the same terms as to pay &c, as the other Deputy Inspectors have been sent on, except that on finishing the course he will not be appointed as Sanitary Assistant to a District but will be appointed to some station as a Sanitary Inspector. The pay he will draw on such appointment will be the same as he would be drawing had he continued in the service as a Deputy Inspector of Vaccination, the total period from date of resignation to date of joining the Sanitary Inspectors' class at Madras being reckoned as leave without pay.

I would add that a year without pay may be taken to be sufficient punishment to the man, and request that --

The Sanitary Commissioner,

Bangalore.

Sir,

Referring to your endorsement No. 1249 dated the 16th September 1908, accepting my resignation from 15th May 1908, I, K. Ramaswami Raju, late Deputy - Inspector of vaccination, Kolar Dist beg to approach you with the following few lines:

I entered Government Service as clerk in the Sub-Judge's court, Bangalore, on a salary of Rs 15/- per mensem on the 16th January 1888, and was promoted to Rs 20/- in May 1891. when I was absent on leave in Burma.

Soon after my return from Burma in 1891 I was transferred to the vaccination Department., as Deputy Inspector of Vaccination (2nd Class) on Rs 40/- in which class I continued till 1902, when my pay was raised to Rs 60/- as I was promoted to the 1st Class.

It will not be out of place here to mention that as I passed the Mysore Local Tests (Revenue and Criminal) and having been ambitious about my advancement in life, as well as the three others in the Vaccination Department, who were taken to the Revenue Department as Deputy Amildars, I approached you as your predecessor with application to recommend me to the Government in the years 1901 and 1900 respectively. You were both pleased to make a recommendation on my behalf, but I was so unfortunate as not to get anything beyond the mere information that on the first occasion my name was ordered to be registered in the Special Register; and on the second occasion that I should be taken either to the Dewan's Office or sent to the Districts.

Having served in Malnad ...ucts of Hassan, Kadur, and the French Rocks Sub-Division for over nine years, my health became seriously affected and I was bed ridden for years together from time to time. as can be seen from the records of the Head-Office,

not to say, that I lost my two daughters, two sons, and my first wife, from the effects of malaria the result of constant touring in malarial tracts with me.

I was granted privilege leave of two months and ten days from the 5th March 1908 to enable me to celebrate the marriages of my two daughters and I came to Bangalore and celebrated the marriage of my eldest daughter. While I was arran-ing to send her to her husband's house and to proceed to my native place (Sholinghar) for the marriag of the second girl, the latter acci-dentally fell into a well in our garden and died. Nor is this all. My present wife, who was in a family way, aborted and was seriously bad for months together. She is still complaining of one thing or another. Doctor Govindarajulu of the Maternity and Hospital, Bangal after treating her in the Hospital fo more than a couple of months & findin not much good, prescribed Aletris Cordi and advised her to take it till compl recovery, which she has been doing, wi the result that she has not yet comp

got over her complaint. These difficulties added to the heavy loss sustained by me in making arrangements for the marriage of the second girl, had rendered me quite reckless and miserable. It was under such circumstances that I had to apply for an extension of leave, even without allowances, but my humble request not being granted, I had no alternative other than tendering my resignation, in case the leave was not granted, - and I was not then in a position to realise the consequences resulting from my above act.

I have subsequently felt for what I have done and beg to solicit a reconsideration of the orders passed in my case and for permission to rejoin my appointment.

Fully trusting you will kindly view my case generously in the circumstances now brough to notice,

I beg to remain,
Sir,
Your Most Obedient Servant

D. O. dated 10th July 1909, from the Senior Surgeon to the First Councillor:—

"Please see enclosed D. O. from Mr. Mylar Rao on my No.5096, also enclosed for your convenience and favour of return.

Col Smyth spoke to me about this case —

My No.5096 was written immediately after my interview with you and I embodied in it what I thought were your wishes.

i. The man had resigned under circumstances of hardship and we thought his case deserved consideration.

ii. It was not thought desirable to take him back as a Deputy Inspector of Vaccination because his appointment has been done away with, no such men being required under the new Rules. So, the only thing that could be done for him was to give him some other appointment such as a Sanitary Inspector's, and for this purpose he required training. We agreed (I believed) that although the other D. I's so trained would be made District Sanitary Assistants, it was undesirable to add to the number of such men by giving this man a similar post. We agreed in fact in thinking that such District Sanitary Assistants will be a little better than a nuisance- for they will be no better than the Sanitary Inspectors they will be supervising and will never command the confidence of the Deputy Commissioners. To add to the number of such men was therefore considered far from advisable; and so we agreed to train him as a Sanitary Inspector and give him a Sanitary Inspector's post only., but on the pay he was drawing as a D. I. Vaccination. It was an effort to make the best of a bad situation, which could only be improved by gradually eliminating all these so-called Sanitary Assistants and replacing them by properly qualified men. I hope I have made myself clear!"
